WEB DESIGN AND MARKETING

Introducing Web Interactive, The Computer Company's new web development and online marketing division.

DATABASE / PROGRAMMING

Businesses are looking for custom-targeted solutions that are fast, easy, affordable and user-friendly.

Portfolio & Client Listing

Anyone can design a website, but we design an experience!

That means higher volumes of visitors to your site and more money in your pocket!

Introducing the latest way to manage your business online.

Every business needs more than just a website

Sell products with your online store
Send email campaigns
a full-fledged Event Calendar
flexible and customizable forms
an advanced CRM system capable of handling thousands of customers
• Most of all, a business needs analytics and business intelligence on web clicks, email opens, and amount of orders to keep them ahead of the competition

Help Center

SCS International developed and optimized this program to better assist our clients in the continued management of their online presence with the ability to keep their audience abreast of new developments at their leisure.

Businesses are looking for custom-targeted solutions that are fast, easy, affordable and user-friendly. Our eCommerce feature will be your best employee. Update products, track customer orders, manage stock...there's nothing you can't do. We put the control back into your hands. And that's not all. Send out automated order confirmation emails, search your entire catalogue by name, keep track of orders and more.

We are the solution for web agencies & corporate businesses

SENIOR SCHOOL OF COMPUTER STUDIES (UG)

COMPUTER EDUCATION

We provide both formal and non-formal computer education providing both national and international qualifications so it means that we enroll students from Primary Seven to University including colleges and technical institutions for Formal Education at a certificate level. Children that never attained any academic qualification are also welcomed, after which they receive non-formal education.

NON-FORMAL EDUCATION

This caters for people that never went to school or even stopped schooling before completing Primary Seven (P.7). Senior Computer Services International in partnership with the Ministry of Education and Sports, has provided some Computer courses. Such people after being educated, they will be awarded with a certificate which will enable them work in any Government department, organization, Business among others.

AT THE CENTRE

Senior computer services international has established a computer school at the Centre for elimination of computer illiteracy. Many young people are locked up in rural areas without ability of learning and acquiring computer skills. So in helping & supporting these young people SCS International decided to establish this educational Centre and provide computer educational service for free or at a little payment from parent whose backgrounds are somehow stable. Senior computer services international uses an international computer curriculum for the effective teaching learning process. We also offer career-focused online, onsite & distance learning courses worldwide. At Senior Computer Services International (International school of Computer Studies), your learning fits around you with 24/7, multi-device, multi-media learning materials and all the support you need to succeed. We teach you more things about Professionalism in I.T and how to manage I.T Businesses.

STUDENT SUPPORT

Understanding, approachable and ready to help, our Student Support team at Senior Computer Services International are committed to helping you manage your course, with some having first-hand experience of studying with us. Because you have a personal student

co-ordinator to support you with your course progress

WHAT MAKES US SPECIAL?

We are aiming at supporting 50 orphans and vulnerable children across the country WITH computer education

Providing support to 50 orphans/vulnerable children: tuition, functional fees meals, scholastic materials, beddings, support and medical care.

Deliverables under Phase

Tuition for initial 24 vulnerable children, scholastic materials (2 school uniforms, 20 counter books per term, 2 pairs of bed sheets, 2 pairs of socks, 2 pairs of shoes, and a school handbag for each of the pupils), textbooks, meals, 24 orphans' double Decker beds 24 pupils' mattresses; basic health care and psycho-social support for the 24 vulnerable children.

Be our ambassador

You can become our ambassador in different parts of the world. We shall be so happy to have you. Senior Computer Services International is a Technology Company. This company was founded by a group of computer Teachers to develop people's businesses as we eliminate computer illiteracy.

SCHOOL COMPUTER CLUBS

Senior Computer Services International has initiated the project of opening up computer clubs & Organizations in Schools. this is done to ensure zero computer illiteracy.

YOUTH EMPOWERMENT TO END COMPUTER ILLITERACY

We believe that in order to help the youth in development and adoption of Technology it is vital to empower rural schools too. Our project bring support to communities in form of materials and fees to help them overcome their situations of limited computer systems in schools and communities as they are vital in technology development.

The Young people's Economic Empowerment Program targeting disadvantaged people so that they can become economically empowered through computer-business trainings, financial skilling programs, small start-up capital, and the facilitation of computer groups. This is done at all our clubs and in the fields recognized and accepted by the center administrator i.e. schools, hospitals, companies, and other various institutions.
